The World's Largest Swimming Lesson™

Learning To Swim Helps Prevent Drowning. PERIOD.

It's a fact, yet millions of kids never take swim lessons or learn basic water safety skills. And, many parents don't understand the risks involved. The result? Drowning remains the leading cause of accidental death for kids ages 1-4 in the U.S.; and globally it is one of the top five causes of death for people ages 1-14. Help us spread the word *Swimming Lessons Save Lives™*.
